Polyfix Trading

Company Overview

Polyfix Trading is a trusted name in **India** for advanced **waterproofing solutions, epoxy flooring systems, and construction chemicals**, delivering high-performance materials along with expert application services. We are dedicated to protecting and enhancing the strength, safety, and long-term performance of residential, commercial, and industrial structures across diverse Indian climatic conditions.

Driven by **quality, reliability, and technical expertise**, Polyfix Trading partners with consultants, architects, engineers, contractors, and property owners to deliver proven systems that effectively combat water leakage, dampness, corrosion, and surface deterioration. Our solutions are designed to extend building life cycles, reduce maintenance costs, and ensure sustainable construction outcomes throughout India.

Our Vision

To be recognized as a benchmark organization in waterproofing and construction chemical solutions, known for quality leadership, innovation, and enduring client trust.

Our Mission

To deliver end-to-end, high-performance waterproofing and flooring solutions through:

- Collaboration with globally trusted brands
- Highly trained and experienced technical professionals
- Advanced application methodologies
- Consistent after-sales and technical support

Core Expertise

Polyfix Trading operates with a clear specialization in premium waterproofing and epoxy flooring systems, supported by a technically proficient and experienced workforce.

Our expertise enables us to engineer customized solutions aligned with site conditions, environmental exposure, and functional requirements—ensuring superior durability, safety, and lifecycle value.

OUR SERVICES

WATERPROOFING SOLUTIONS

- Roof Waterproofing (Metal, Concrete & PU Systems)
- Waterproofing for Wet Areas (Bathrooms, Kitchens, Balconies)
- Basement and Foundation Protection
- PU & Epoxy Injection Systems for Leak Sealing
- Dampness Control and Surface Restoration
- Concrete Water Tank Waterproofing (Internal & External)
- Swimming Pool Waterproofing and Tile Joint Sealing
- Expansion Joint and Structural Waterproofing
- Terrace and Podium Waterproofing
- Bituminous Membrane Applications (Torch-Applied & Self-Adhesive)

OUR SERVICES

EPOXY FLOORING SYSTEMS

Our epoxy flooring solutions are designed to meet the highest standards of durability, hygiene, and chemical resistance:

- **Industrial and Commercial Epoxy Flooring**
- **Self-Levelling Flooring Systems**
- **Car Parking Epoxy Floors**
- **Anti-Corrosion Coatings**
- **Concrete Floor Repair and Protection**
- **Expansion Joint Repair and Waterproofing**

These systems are ideal for environments requiring long-term performance and minimal maintenance.

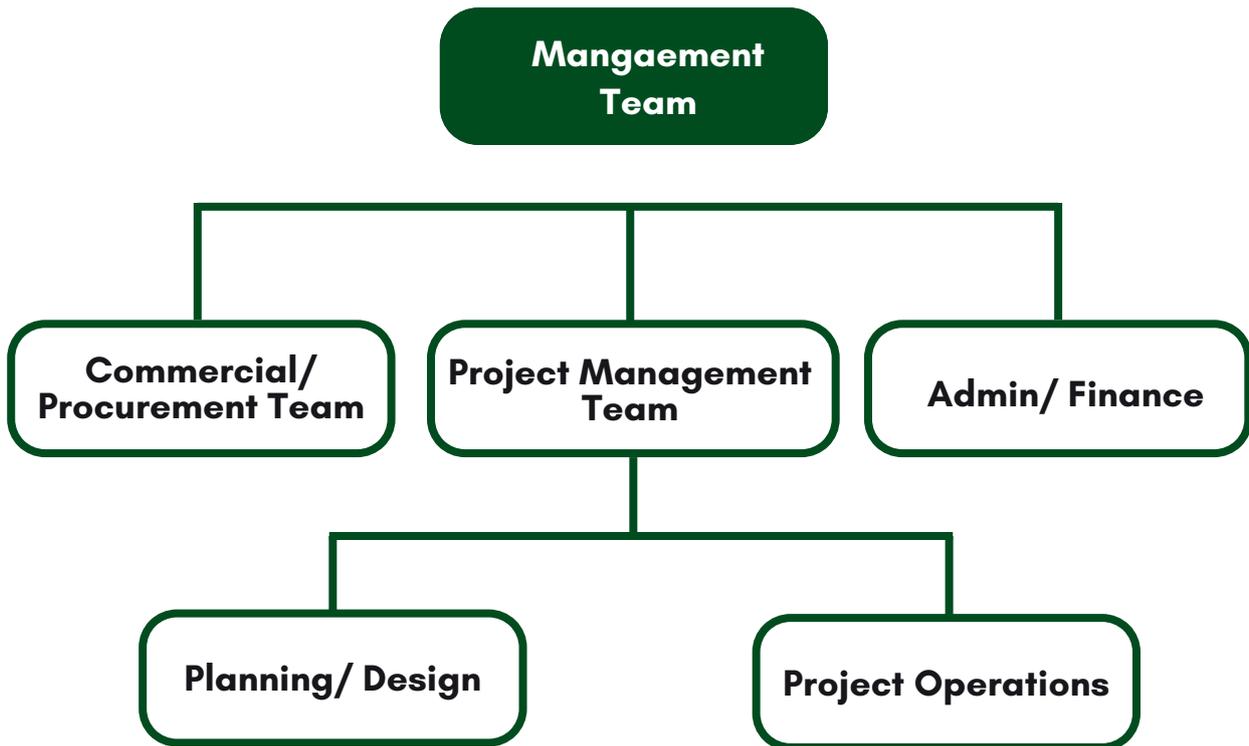

Organizational Excellence

Our company is a result-oriented organization with a clear focus on future expansion and a diversified portfolio of services in both waterproofing solutions and building maintenance works.

We are **supported by a highly professional team comprising qualified engineers** who are exceptionally well-versed in concrete treatment, coating applications, and advanced waterproofing systems. Their thorough technical knowledge and extensive hands-on experience strengthen our capability to deliver reliable and long-lasting solutions.

Organizational Hierarchy

Project Management Framework

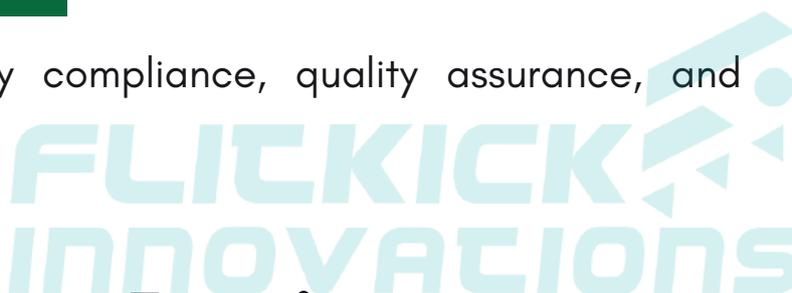

Our Project Management Team ensures seamless execution across all stages, supported by:

Planning & Design Team

Technical planning, drawings, method statements, material approvals, and engineering support.

Project Operations Team

Site supervision, safety compliance, quality assurance, and schedule management.

Business Support Functions

Commercial & Procurement Team

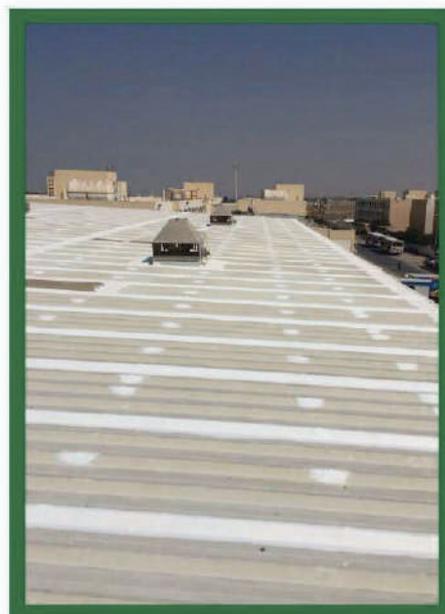

Strategic sourcing, vendor coordination, cost management, and documentation control.

Administration & Finance Team

Accounts, compliance, HR, logistics, and administrative governance.

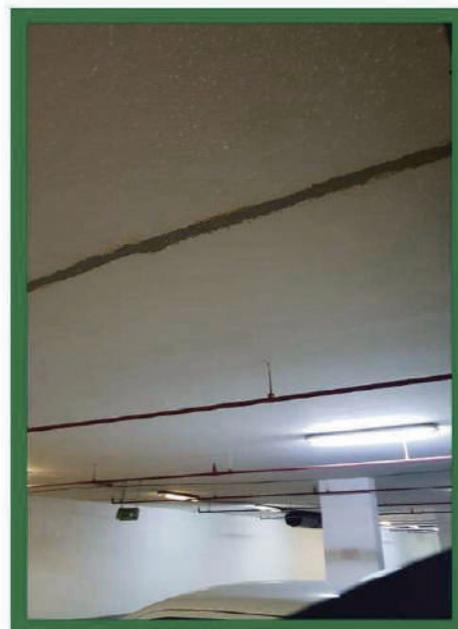

Roof Waterproofing

Roof waterproofing involves applying protective materials to stop water infiltration, safeguarding your home from damage. Our service uses high-quality materials and advanced techniques to seal roofs, prevent leaks, and extend their lifespan.

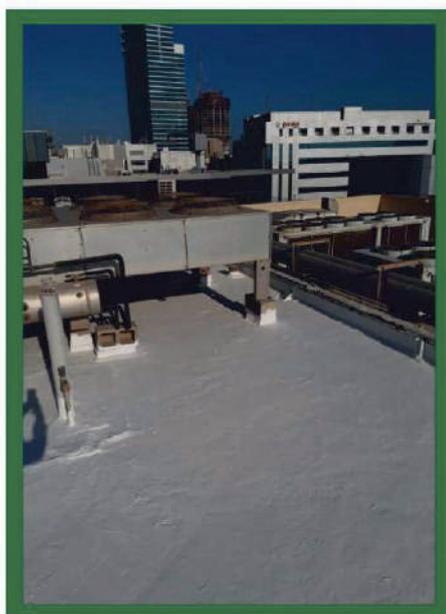

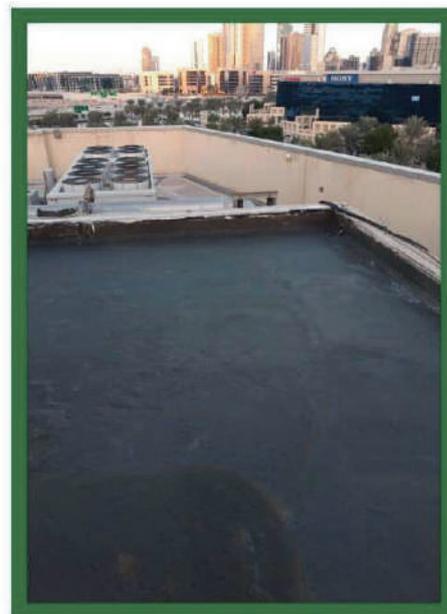

Injection Waterproofing

Injection waterproofing involves injecting materials into cracks to prevent water infiltration, safeguarding properties from water damage using high-quality materials and advanced techniques.

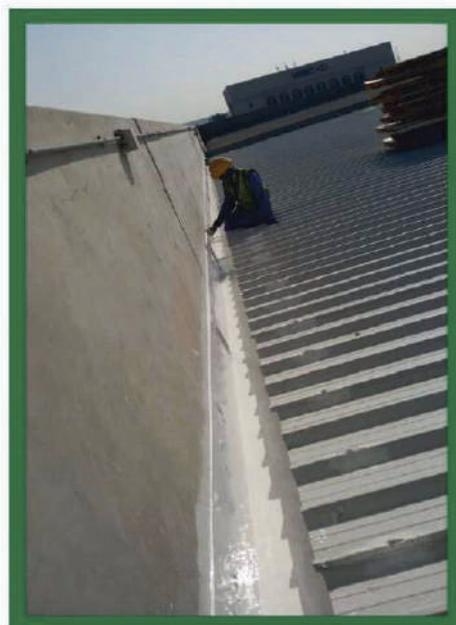

Concrete Roof Waterproofing

Concrete roof waterproofing involves applying specialized materials to prevent water infiltration, protecting roofs from potential water damage. This process utilizes high-quality materials and advanced techniques to ensure long-lasting durability.

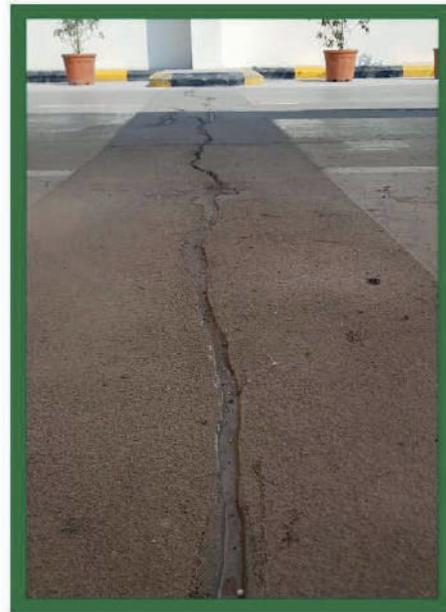

Roof Gutter Waterproofing

Roof gutter waterproofing uses advanced materials to seal leaks, preventing water intrusion and protecting structures from damage by employing high-quality techniques and reliable materials.

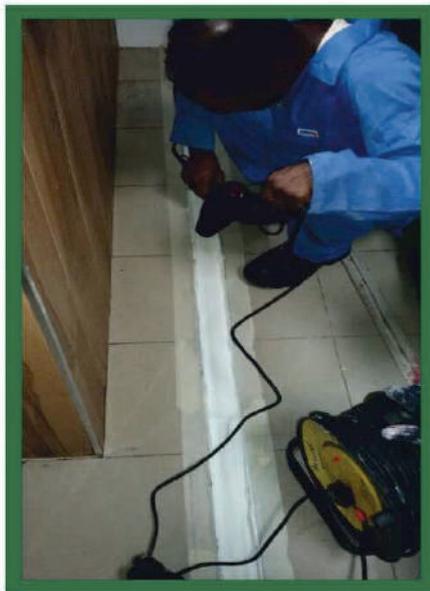

Crack Repair Waterproofing

Crack repair waterproofing involves utilizing advanced materials to seal cracks, preventing water intrusion and safeguarding structures from damage. This process employs high-quality techniques and reliable materials for effective protection.

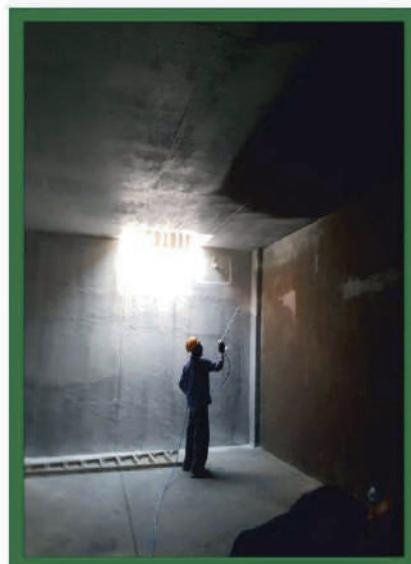

Expansion Joint Waterproofing

Expansion joint waterproofing uses advanced materials to seal joints, preventing water intrusion and protecting structures. This process employs high-quality techniques and materials for lasting results.

Concrete Tank Waterproofing

Concrete tank waterproofing utilizes advanced materials to effectively seal tanks, preventing water intrusion and ensuring structural integrity. This approach employs top-quality techniques and materials for long-lasting results.

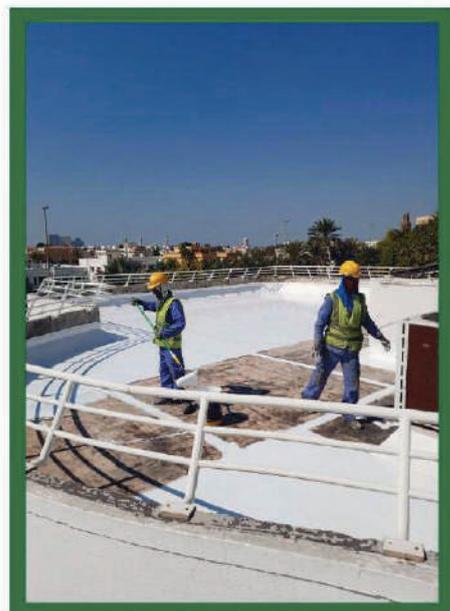

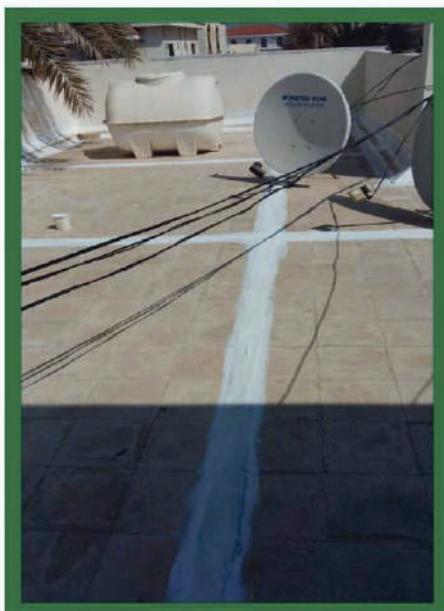

Bathroom/ Wet areas Waterproofing

Bathroom and wet area waterproofing involves using advanced materials and techniques to create a moisture-resistant barrier, preventing water intrusion and preserving the structural integrity of these spaces.

Villa's Waterproofing

Villa's waterproofing solutions for bathrooms and wet areas utilize cutting-edge materials and techniques to establish a robust moisture-resistant barrier.

Glass Joint Sealant Waterproofing

Glass joint sealant waterproofing solutions offer advanced protection for your spaces. Using state-of-the-art materials and techniques, these sealants create a strong, durable barrier that effectively prevents moisture penetration.

Pipe Drain Waterproofing

Pipe drain waterproofing solutions provide robust protection for your drainage systems. Utilizing cutting-edge materials and methods, these solutions form a reliable, long-lasting barrier that effectively blocks moisture intrusion.

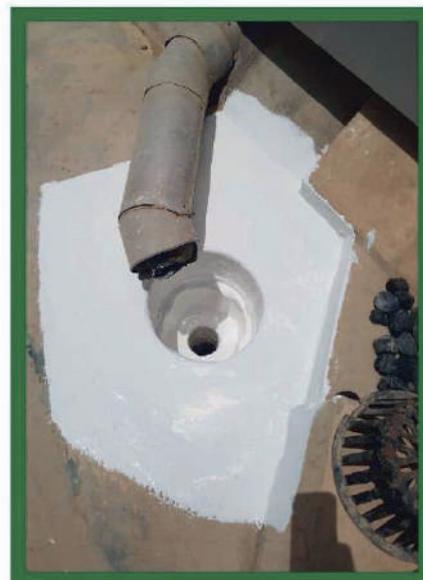

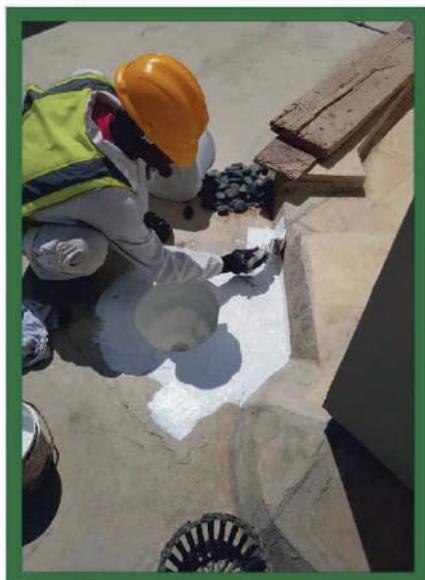

Moisture Wall Dampness Treatment

Moisture wall dampness treatments offer comprehensive solutions to combat damp issues in your walls. These treatments create a durable barrier that prevents unwanted moisture from penetrating, ensuring your walls remain dry and protected over time.

Roof Drainage Waterproofing

Roof drainage waterproofing systems provide effective solutions to prevent water infiltration and protect your roof from damage. These systems create a reliable barrier that directs water away from your roof, ensuring it remains dry and safeguarded against leaks and wear over time.

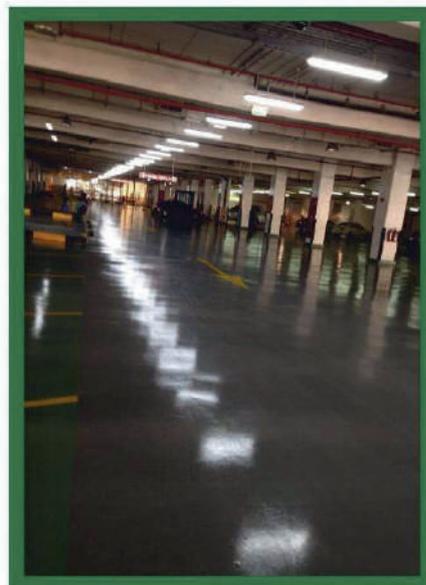

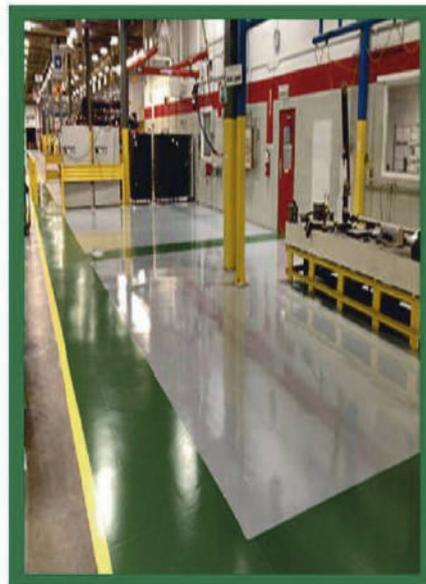

Planter Box Waterproofing

Roof drainage waterproofing systems provide effective solutions to prevent water infiltration and protect your roof from damage. These systems create a reliable barrier that directs water away from your roof, ensuring it remains dry and safeguarded against leaks and wear over time.

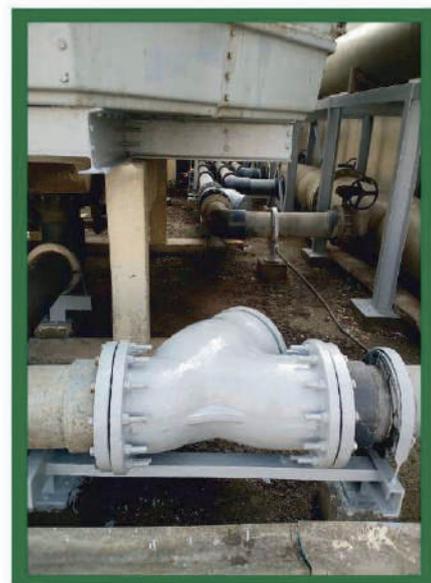

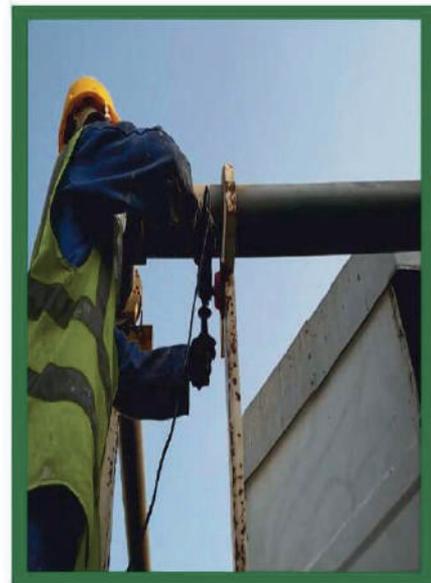

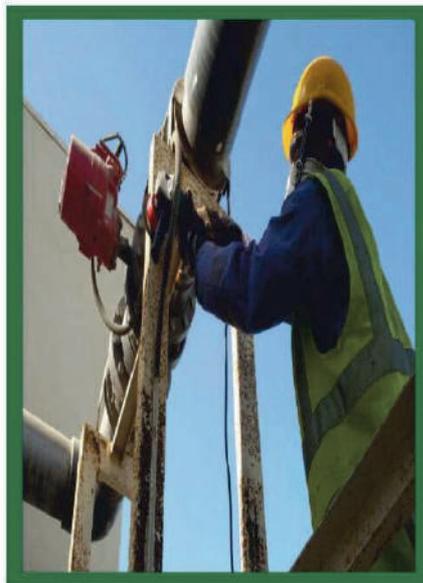

Epoxy Flooring

Epoxy flooring offers durable and aesthetically pleasing solutions for both residential and commercial spaces. This flooring system creates a seamless surface that is resistant to stains, chemicals, and abrasions, making it ideal for high-traffic areas.

Anti-Corrosion Painting

Anti-corrosion painting provides a robust and aesthetically appealing solution for protecting surfaces in various environments. This specialized coating system creates a barrier that resists moisture, chemicals, and rust, making it ideal for industrial applications.

ISO Certificate

Why Polyfix Trading

Our company is a leader in the industry, known for its commitment to excellence and innovation. We pride ourselves on delivering top-notch services and products that meet the highest standards.

- **Authorized dealer and certified applicator for globally trusted brands**
- **Comprehensive solutions from assessment to execution**
- **Extensive portfolio of premium construction chemicals**
- **Tailored systems engineered for specific project conditions**
- **Strict quality control aligned with international standards**

Reliable timelines supported by strong technical supervision

AUTHORIZED DEALER

Yadong Chemical Group Co.

Polyurethane Foam Insulation Chemicals (China)

AUTHORIZED DEALER

Pidilite | Roff | Bondtuf | Zydex | Fosroc | UltraTech

Specializing in Waterproofing & Construction Chemicals

Local Partners

Technical Strengths

- Advanced surface preparation and application techniques
- Superior bonding strength and long-term durability
- Project-specific system design and material selection
- High resistance to moisture, chemicals, and abrasion
- Compliance with safety, quality, and performance standards
